The idea of creating a path to citizenship for certain classes of immigrants who currently are in our country illegally may sound like a reasonable humanitarian measure on its face, but without workable, realistic measures to stop the flow of potential terrorists and other criminals, drugs and weapons across our borders, the DREAM Act is a national security nightmare.

And as long as federally-recognized Indian Tribes maintain control of vast sections of our north and south borders, our Nation will never be secure.

Although the Federal Government has been concerned about border security in Indian Country for more than a decade, the threat to our country continues. Consider the following evidence:

U.S. Attorney General
John Ashcroft at the
Native American Border
Security Conference,
Jan. 17, 2002

The United States shares some 7,400 miles of patrolable international boundary with Canada and Mexico. More than 25 Indian tribes govern lands that are either adjacent to borders or directly accessible by boat from the border. These tribal lands encompass over 260 miles of international borders – a distance 100 miles longer than California's border with Mexico. Tens of thousands of illegal migrants cross these borders and disappear into the heart of our nation every year.

Trafficers also smuggle large amounts of illicit drugs, primarily marijuana, into the U.S. from Canada and Mexico through reservations that border these countries, namely the St. Regis Mohawk Reservation in New York and the Tohono O'odham Reservation in Arizona. Multiple tons of high-potency marijuana are smuggled through the St. Regis Mohawk Reservation each week by Native American DTOs [drug trafficking organizations] that are supplied by Canada-based DTOs. Native American DTOs also smuggle multithousand-tablet quantities of MDMA into the U.S. and multikilogram quantities of cocaine into Canada through the reservation. As much as 20 percent of all high-potency marijuana produced in Canada each year is smuggled through the St. Regis Mohawk Reservation, which accounts for less than half a percent of the U.S.-Canada border. An estimated 5-10 percent of all the marijuana produced in Mexico is transported by Mexican DTOs each year through the Tohono O'odham Reservation, which accounts for less than 4 percent of the U.S.-Mexico border. These traffickers also smuggle...coca...he...methamphetamine.

General Accounting Office
report to the U.S. Senate,
April 2013

Individuals seeking to enter the United States illegally may attempt to avoid screening procedures at ports of entry by crossing the border in areas between these ports, including Indian reservations, many of which have been vulnerable to illicit cross-border threat activity, such as drug smuggling, according to the Department of Homeland Security.

By Executive Order, Obama established the White House Council on Native American Affairs, violating the sovereignty of the United States as well as the 9th, 10th, 11th, 14th and 15th Amendments of our Bill of Rights.

Vice President Joe Biden announced new White House initiatives to further limit access of law-abiding citizens to guns, while the Obama Administration and Attorney General Eric Holder have never accepted responsibility for their role in irresponsibly placing weapons in the hands of Mexican drug cartels, resulting in the death of a border patrol agent and endangering the lives of hundreds of others in Operation Fast and Furious.

Baby Veronica isn’t the only victim of a bloated, archaic, “sovereign” bureaucracy that protects Tribal interests while continuing to violate the sovereignty of the United States as well as the 9th, 10th, 11th, 14th and 15th Amendments of our Bill of Rights.

Vice President Biden
Aug. 30, 2013

The Obama Administration and Attorney General Eric Holder have never accepted responsibility for their role in irresponsibly placing weapons in the hands of Mexican drug cartels, resulting in the death of a border patrol agent and endangering the lives of hundreds of others in Operation Fast and Furious.

Baby Veronica isn’t the only victim of a bloated, archaic, “sovereign” bureaucracy that protects Tribal interests while continuing the abuse and death of Tribal members and threatening each American Child as blood quantum requirements are being lowered to include more children as Tribal members. As American Citizens we must demand our President and Congress Abolish the 1978 Indian Child Welfare Act and reclaim control of our borders by advancing THREE POINTS FOR FREEDOM:

1. RESTORE INDIVIDUAL PROPERTY RIGHTS: President Obama MUST issue an Executive Order abolishing the Trust Responsibility of the Department of the Interior and Bureau of Indian Affairs over the 568 recognized American Indian Tribes, members and potential members.

2. REDIRECT GOVERNMENT RESOURCES: The Bureau of Indian Affairs MUST be abolished, then its personnel, clinics and hospitals must be transferred back to the Department of Defense and Veterans Affairs to improve medical services for our active troops and veterans.

3. ABOLISH AFFIRMATIVE ACTION: All ethnic and racial preferences and quotas, including all “ethnic origin” questions on all forms, applications and the U.S. Census MUST be abolished. We must be allowed to compete as equals to protect our children, our country and our military as we obtain our freedom to be equal.

Please make a phone call for freedom to Gov. Fallin’s Comment Line 405-521-2342 today and insist the South Carolina order be enforced and Baby Veronica is returned to her legal adoptive parents.

“Separate-But-Equal” Is Not Equality: Let’s End It

We are Brad and Lee Ann Ragains, owners of BLTTanks.com in Kingfisher, Oklahoma. We invite all potential opportunities for individuals and businesses to compete as equals in America’s economy. We must re-invest in America and build up the American economic infrastructure. Comprehensive details are listed at LeeAnnRagains.com.
Tom Cummings, Lions governor, speaks to Cashion Lions Club

The Cashion Lions Club met at 6:30 p.m. Monday, Aug. 26, at the United Methodist Church in Cashion for its regular dinner meeting, according to District 3H Governor, Tom Cummings, who introduced the guest speaker. Cummings is also the principal of the School District in Cashion. He is an Episcopal priest, Governor, and his wife, Lydia, is a Quaker by religion.

Cummings presented his program on "The 2013 White House Conference on Aging." He described the conference as the largest national conference of its kind. He told the Lions that at least 14 people had attended a conference last year, and it has since grown to more than 100 people.

Cummings also talked a little about the aging process itself. He said that the average life expectancy for a man is 78 years and for a woman is 81 years.

Cummings ended his presentation by describing the types of services that are available to the elderly. He said that they include medical care, transportation, home care, meal delivery, and social services.

The next meeting of the Cashion Lions Club will be on Sept. 7.

**Microwave Tips**

1. Be sure the meat has lost its pink color before draining fat.
2. Be sure to add water to the meat in the microwave.
3. Be sure to add the vegetables to the meat in the microwave.
4. Be sure to add the seasonings to the meat in the microwave.
5. Be sure to add the wine to the meat in the microwave.
6. Be sure to add the pink color to the meat in the microwave.
VIEW from the past, the future

(A column of opinion by Gary Nest, Publisher Emeritus)

Do Muslims like BHO as president?

Does it seem reasonable that President Obama would have received a certain amount of Muslim support? In all likelihood, it would be difficult to give him complete protection, make it appear as a political base, and if you go on to drive that trail with a bunch of trailbuggers, you leave me here with all the horrible memories you have back.

If you didn't have a job and I didn't ask you to go on the same trail drive with you, it's my fault that you've got the sea of what you can make with them. We don't want to make them, we want to make them want to be. Is there any of you who drive that trail drive with a bunch of trailbuggers, you leave me here with all the horrible memories you have back.

I had a good comeback for that one but decided to say something else. I can't do that with you. If you don't have a job and I didn't ask you to go on the same trail drive with you, it's my fault that you've got the sea of what you can make with them. We don't want to make them, we want to make them want to be. Is there any of you who drive that trail drive with a bunch of trailbuggers, you leave me here with all the horrible memories you have back.

Is It too late to dream and to do?

By Ted Buswell

Wednesday was the 50th anniversary of the Martin Luther King Jr. Day. It's a day that we recognize as "the dream." It was a day that we were in truth equal in all respects. We were in truth equal in all respects. We were in truth equal in all respects.

It goes without saying that the BHO administration has continued to solidify the Middle East. The Obama administration has continued to solidify the Middle East. The Obama administration has continued to solidify the Middle East. The Obama administration has continued to solidify the Middle East.

Morsi also straightforwardly stated that he was being recruited by the Muslims Brotherhood to become a police general. As for the issues MLK faced, the black community is not nearly as aggrieved as his. The black community is not nearly as aggrieved as his. The black community is not nearly as aggrieved as his.
